**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Much lighter winds over higher ridges and summits but still a chilly feel with temperatures close to or below freezing.

Forecast for Saturday 16 Oct 2021
Weather: Dry, bright morning with sunny spells and a frost in the glens at first. Then becoming cloudy with patchy light rain in the afternoon, much of over the mountains of Knoydart and Skye, extending to many ranges during the evening.

Maximum wind: South or southwesterly winds strengthening on the tops during the day, average speeds of 15mph at first increasing 30 gusts 45mph in the afternoon.

Chance of cloud free mountain/hill tops above 800m: 90% during the morning decreasing 30% during the afternoon.

Visibility: Very good with some patches of cloud on the tops during the morning, mostly hills near to West Coast. Clouds will become more extensive during the afternoon and early evening with bases lowering to about 600m in south and west of area. Becoming misty in these areas too.

Temperature: **Glens:** Minus 2 Celsius rising later in the day to 12 Celsius.
At 800m: Minus 1 Celsius rising to plus 4 Celsius during the afternoon.
Freezing level: 700m at first, lifting above the summits during the day.
